company*

# Sustainability is core to what we do

**Green Refrigerants** 01

**Solar driven products** 02

**Energy Efficient** 03

**Energy Star Certification  
ACT Label** 04

**Sustainable  
Manufacturing Facility** 05

# We are compliant with the regulations and ensure that we have strong governing and guiding principles

## Guiding Principles

United Nations  
Global Compact

SUSTAINABLE  
DEVELOPMENT  
GOALS

Member of the UN Global Compact since 2019 and guided by the United Nations Sustainable Development Goals (SDGs)

## Certification

We ensure that our products and operations are compliant to the industry leading regulations/certifications

## Compliance Policy

- ✓ Business Principles including rules regarding health and safety, environment, business integrity, and social
- ✓ Whistleblowing Policy
- ✓ Anti-Bribery/Anti-Corruption/Sanctions/Compliance Policies & Procedures

We ensure that our company is compliant with the laws and policies

## Human Rights

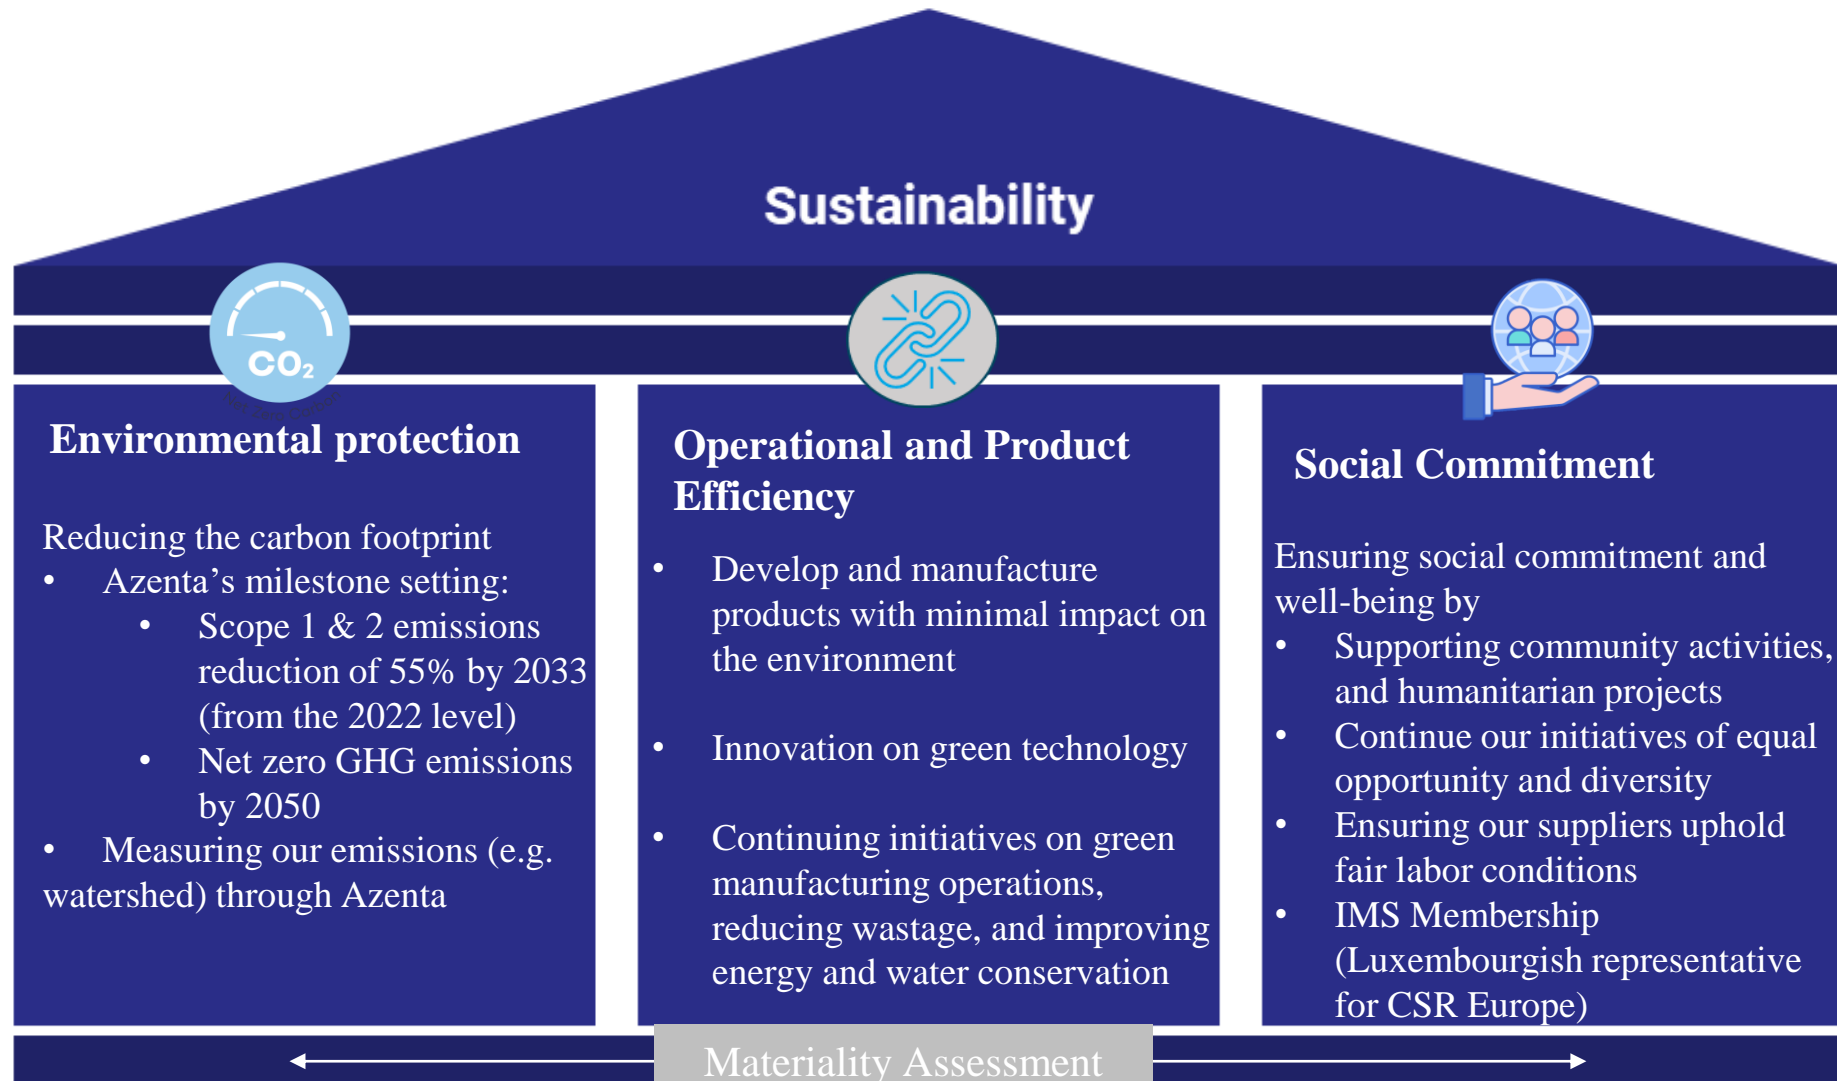

- 100% compliance with local regulations concerning
- ✓ Equal opportunities
  - ✓ Non-discrimination
  - ✓ Human rights
  - ✓ Medical Surveillance
  - ✓ Grievance mechanism

B Medical Systems' policies and programs ensure that the right to freedom of opinion/expression and human rights are never abused

However, we want to take our sustainability journey to the next level and will focus on 3 key pillars going forward

## Key Pillars of our Sustainability Strategy

# We are in preparatory stages for CSRD

## 3 Criteria match for BMS

- ✓ More than €50M in turnover (revenues)
- ✓ More than €25M in total assets
- ✓ Average 250+ employees

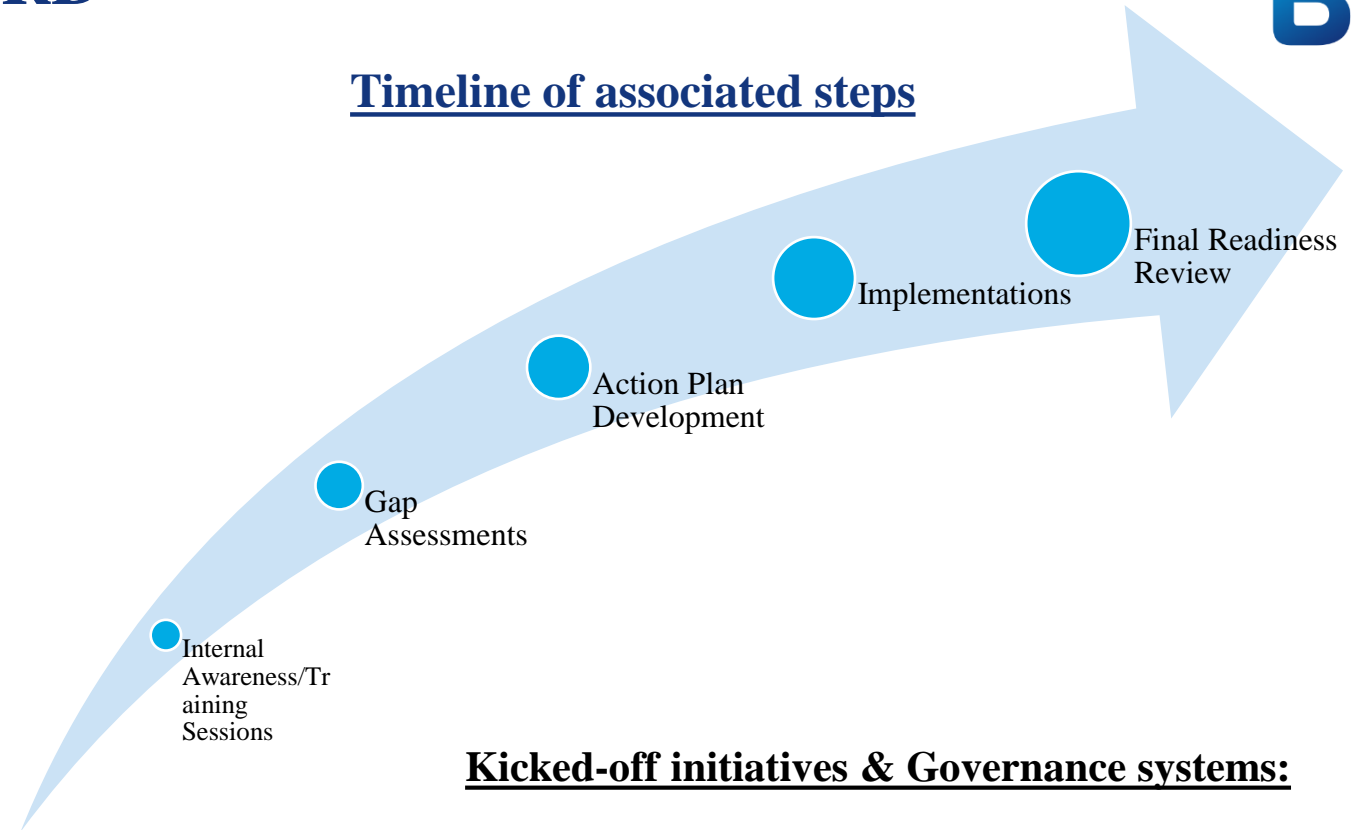

## Preliminary applicability of CSRD

- BMS: report to be issued in 2026 for FY2025 (as EU large company)
- For Azenta: report to be issued in 2029 for FY 2028 (as non-European company with substantial activity in the EU market)

## Preliminary applicability of CS3D

- For BMS only in combination with Azenta and most probably only as of 2029 when we match the criteria: >1k employees & >450MIO turnover

## Timeline of associated steps

## Kicked-off initiatives & Governance systems:

- Screening Systems (DPL)
- Supplier and distributor onboarding processes
- RoHS/REACH compliance initiatives
- Ecovadis
- And many more especially within Azenta compliance world
